

## DIRECTIONAL ARROW TAPE DESCRIPTION

Directional arrow tape is used to easily and effectively mark pipe flow direction. Made of durable synthetic base stock with an aggressive adhesive and clear over-lamination film to protect the printed surface and offer years of service

It has a continuous print design for professional looking installation so arrows are viewable 360°. The tape has a removable backing liner that is removed prior to application.

Complies with ANSI / ASME A13.1 and CAN/CGSB-24.3-92 standards for pipe markings.

## PHYSICAL PROPERTIES

Material	Durable pressure sensitive vinyl
Thickness	4.3 mil (0.0043" or 0.11 mm)
Adhesive	Wide temp. range, heavy coat weight, permanent rubber-based adhesive
Operational Temperature	-50°F (-40° C) to 140°F (60° C)
Surface Preparation	Clean and Dry
Chemical Resistance	Excellent
Water Resistance	Excellent
Width Sizing	1" (25.4 mm), 2" (50.8 mm) and 4" (101.6 mm)
Lengths	108' (32.92m)
Finish	Gloss
Available Colors	Red, Orange, Yellow, Green, Brown and Blue
