

BANDING TAPE DESCRIPTION

Banding tape is used to color code piping/conduit as per specifications. Made of soft PVC (vinyl) that is both plasticized and stabilized for durability.

It is coated with rubber-based pressure sensitive adhesive on one side. It is moisture resistant and anti-corrosive which makes it a good adhesive to metal and plastic.

PHYSICAL PROPERTIES

Material	Durable pressure-sensitive vinyl
Thickness	4 mil (0.004" or 0.1 mm)
Temperature	Suitable for under 104°F (60° C)
Surface Preparation	Clean and Dry
Chemical Resistance	Good
Water Resistance	Excellent
Width Sizing	1" (25.4mm), 2" (50.8 mm), 3" (76.2 mm), 4" (101.6 mm) and 6" (152.4 mm) widths
Lengths	108' (32.92 m)
Finish	Matte
Available Colors	Yellow, Green, Emerald Green, Red, White, Black, Orange, Blue, Lt. Blue, Brown, Grey, Purple
